# USER INTERFACE DESIGN

**ROLL NO : 240701012** **EXPERIMENT-5** **NAME: R.ABISHAA**

**Task Analysis**

Task Analysis is the process of *breaking down a user's interactions* with a system into smaller, manageable steps to understand how users achieve their goals. It helps in identifying user needs, pain points, and areas for improvement.

**Key Aspects of Task Analysis:**

- Understanding what tasks users perform.
- Identifying the sequence of actions required to complete a task.
- Analyzing user pain points and inefficiencies.
- Defining requirements to improve the user experience.

**User Flow**

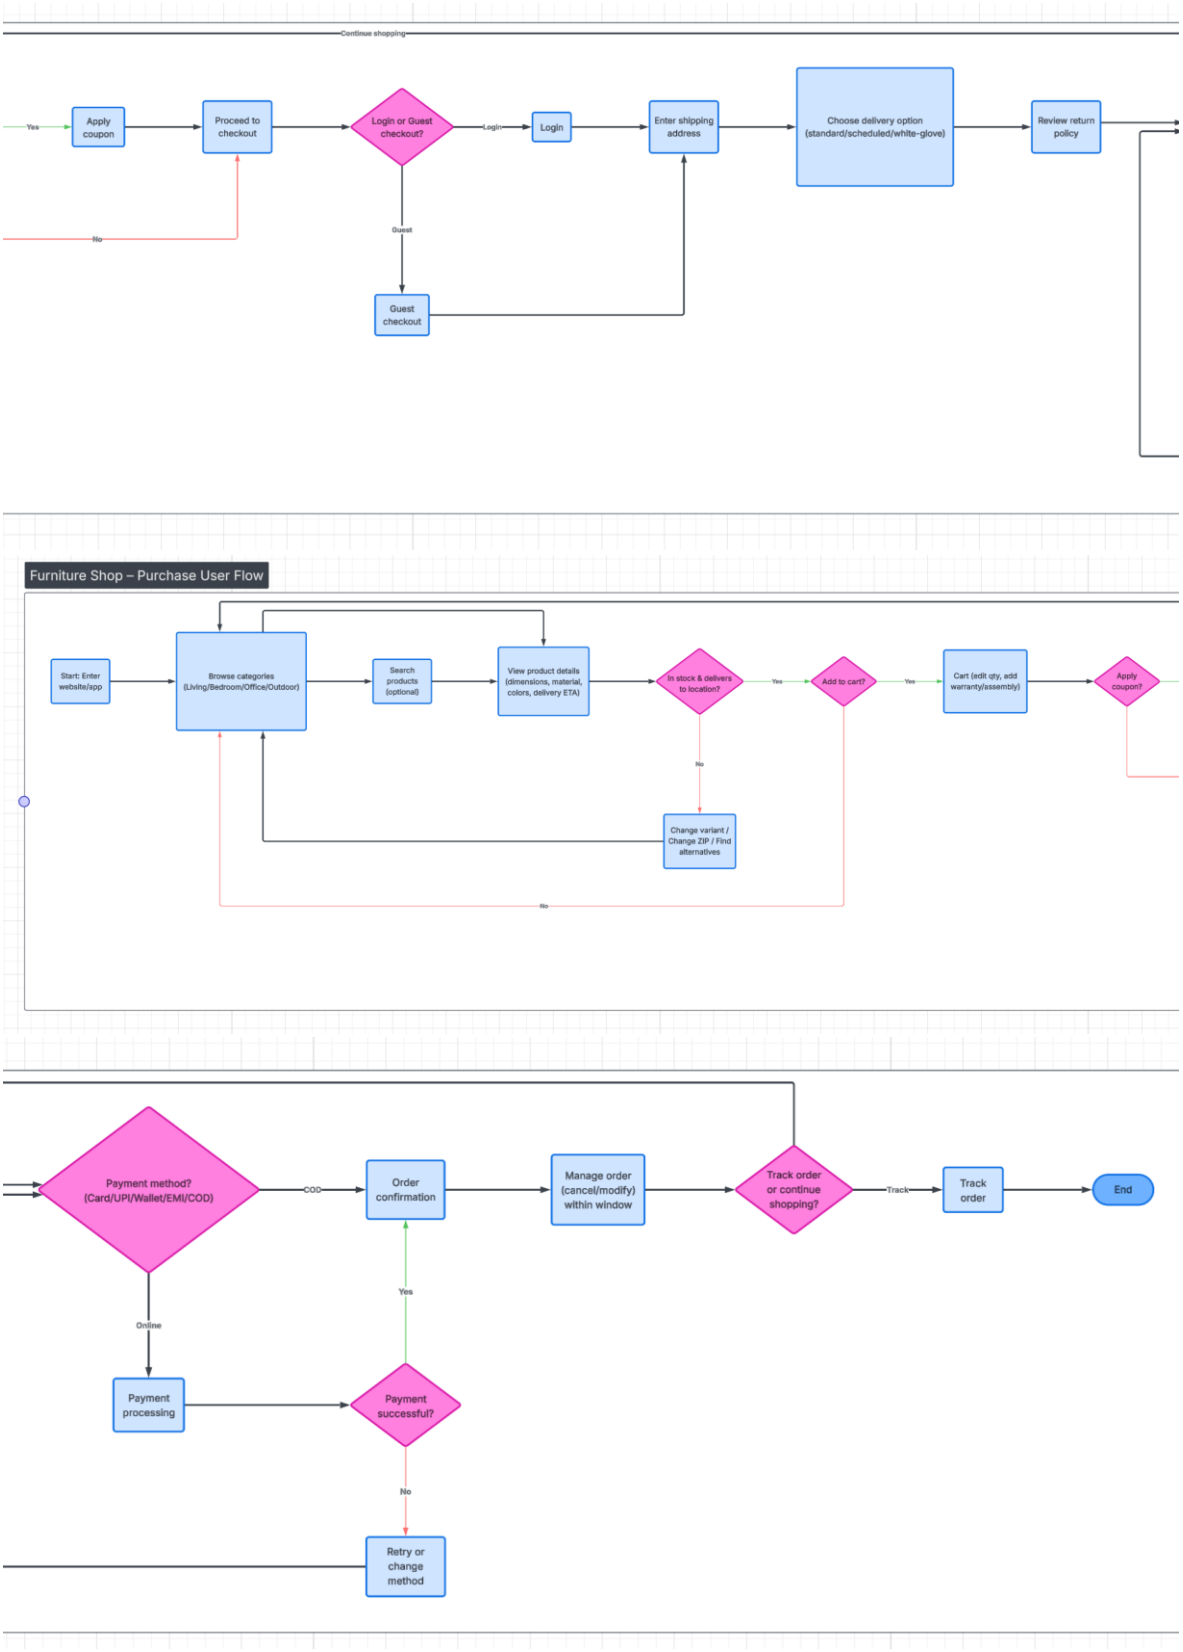
User Flow is a *visual representation* of how users navigate through an application to complete a specific goal. It shows the steps users take from the entry point to the final action.

**Key Aspects of User Flow:**

- Represents decision-making paths (e.g., what happens if a user cancels a form?).
- Maps different navigation possibilities (e.g., alternative ways to reach the goal).
- Shows how users move between screens.

## E-Commerce [FURNITURE]User Flow

Start → Browse → Select product → Add to cart → Checkout → Enter address → Payment → Order confirmation → Track order → End



## Step-by-Step User Flow

## Step 1: Start

- **User opens website or app**

**Step 2: Browse Products**

- **Browse categories**
    - **Living room**
    - **Bedroom**
    - **Office**
    - **Outdoor**

**Step 3: Search Products (Optional)**

- **User searches specific product**

**Step 4: View Product Details**

- **Check:**
    - **Price**
    - **Size**
    - **Color**
    - **Material**
    - **Delivery availability**

**Step 5: Check Availability**

**Decision:**

- **If available → Add to cart**
- **If not available → Choose alternative product**

**Step 6: Add to Cart**

**User can:**

- **Change quantity**
- **Add warranty**
- **Apply coupon**

**Step 7: Proceed to Checkout**

**Decision:**

- **Login OR**
- **Guest checkout**

**Step 8: Enter Shipping Address**

**User enters:**

- **Name**
- **Address**
- **Phone number**

**Step 9: Choose Delivery Option**

**Options:**

- **Standard delivery**
- **Scheduled delivery**
- **White-glove delivery**

**Step 10: Review Return Policy**

**User reads return and refund details**

**Step 11: Select Payment Method**

**Options:**

- **Card**
- **UPI**
- **Wallet**
- **EMI**
- **Cash on Delivery**

**Step 12: Payment Processing**

**Decision:**

- **If successful → Order confirmation**
- **If failed → Retry payment**

**Step 13: Order Confirmation**

**System shows:**

- **Order ID**
- **Delivery date**

**Step 14: Track Order**

**User can:**

- **Track order**
- **Manage order**
- **Continue shopping**

**Step 15: End**

**Task completed successfully**
